Wesnoth Server backup script (1.1)

Creates a backup of your Wesnoth Server folder

Official support sites: Official Github Repo - Official Forum - Official Download Area

i. Edit the settings at the top of wesnothbackup.pl if needed

ii. create a cron job like this:

```
1 1 * * * /home/wesnothowner/WesnothBackup/wesnothbackup.pl
```

iii. This will back up your Wesnoth Server installation at 1:01am each day, and keep the last 5 backups.
